---

## PROFESSIONAL SUMMARY

Full Stack Web Developer skilled in React.js, Next.js, TypeScript, Node.js, Express.js, and MongoDB. Experienced in REST API design, database architecture, and building scalable, high-performance web applications. Strong track record of shipping AI-integrated, production-ready projects end to end.

## WORK EXPERIENCE

### Full Stack Development Intern – Zidio Development

July 2026 – September 2026

- Built an AI-powered customer feedback intelligence platform using Next.js, TypeScript, MongoDB, and Mongoose, supporting multitenant workspaces and role-based access control.
- Implemented automated feedback classification, sentiment analysis, and theme detection using AI APIs.
- Engineered vector embedding generation pipelines and background job processing with Inngest.

## PROJECTS

### LOOP – AI Customer-Feedback Intelligence Platform – Jul 2026 – Present

Built a platform that ingests multichannel customer feedback, uses AI to classify and cluster it, surfaces trending themes, and answers plain-English questions grounded in real feedback data.

### Code Buddy – Jan 2026 – Apr 2026

Developed a full-stack web application that helps developers analyze their code using AI models.

### GMAC Funding Platform – Dec 2025 – Jan 2026

Built a full-stack crowdfunding application with NextAuth authentication and Razorpay payment integration; optimized data management with MongoDB.

### Password Manager – Aug 2025

Built a secure password manager using JavaScript, Node.js, React.js, Next.js, NextAuth, MongoDB, and Tailwind CSS.

### LinkTree Clone – Aug 2025

Developed a Linktree-style link-sharing app with Next.js, React.js, Tailwind CSS, and MongoDB.

### Spotify Clone – Jun 2025 – Aug 2024

Built a music streaming platform with playlist management, real-time playback, and a responsive UI; integrated the GitHub API for data fetching and optimized frontend performance for cross-device deployment.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Python, C++, C, HTML5, CSS3

**Frameworks & Libraries:** React, Next.js, Redux, Node.js, Express.js, Tailwind CSS

**Databases:** MongoDB, MySQL

**Tools & Platforms:** Git, GitHub, VS Code, Postman, REST API

**Other:** UI/UX Design, Data Structures, Search Engine Optimization (SEO)

## EDUCATION

### Bachelor of Computer Applications – CSJM University, Kanpur

2023 – 2026 | CGPA: 7.30 / 10

**Intermediate (XII), Science** – UP Board | 2023 | 91%

**High School (X)** – UP Board | 2021 | 72%

## CERTIFICATIONS

### Web Designing Certification – Wikipedia Tech Solutions, Etawah | May 2025 – Jun 2025

Completed summer training in web designing with hands-on experience in HTML5, CSS3, Bootstrap, JavaScript, and responsive design, building interactive web pages using industry-standard UI/UX practices.
